2010-2013 4-Runner #40556

2010-2013 Tundra #40558

RIGID INDUSTRIES HAS THE LED GRILLE THAT CHANGES THE FACE OF YOUR VEHICLE.

Each LED Grille by Rigid Industries consists of two parts laser cut out of 304 Stainless Steel. The mesh -- no wire mesh used here -- with tabs for the lights and tabs for mounting into the factory grille shell are part of the original piece of steel. There's zero welding.

LED Grilles by Rigid Industries receive the same Satin Black powder coat treatment as our lighting for a seamless look then bolted together with stainless steel button socket head bolts and nyloc nuts. All mounting hardware is also included. Limited lifetime warranty. Covers available to meet applicable state regs.
