

Solar-Therm

PHI Management, in partnership with Simply Solar, is a renewable energy service integrator that supports the development of large-scale renewable energy projects. We can now combine a client's heating, cooling & electrical needs under one creative financing option utilizing geothermal & solar technologies!

20 year fixed rates:

- Oil – prices as low as \$2.50 per gallon
- Propane – prices as low as \$2.00
- Natural gas – prices as low as \$1.00
- Electric – rates as low as \$0.09 per kWh
- Simply Solar, in partnership with EnerGeos, bring together over 20 MWs of solar development & 100's of geothermal installations to create a new view on renewable energy development

We call it *Solar-Therm!*

We seek the following information to evaluate your projects:

1. Current electric bill and annual usage
2. Current fuel bill and annual usage
