

WAKEFIELD-VETTE LAUNCHES NEW WEBSITE – INTEGRATION OF WAKEFIELD THERMAL SOLUTIONS AND VETTE CORP NEARS COMPLETION

PELHAM, NH (USA), — March 11, 2013 — The integration of Wakefield Thermal Solutions and Vette Corp into a single company, Wakefield-Vette, continues – integrated operations, a single dedicated sales force and a new company website, wakefield-vette.com.

The new Wakefield-Vette website has a graphically-rich, up-to-date treatment with liberal use of product, location and process images. The site is logically organized to make it easy to use and navigate and includes a whole-site search feature that quickly and easily retrieves company or distributor product inventory, product documentation such as data sheets, sales representative or distributor contacts, or any information of interest to the user.

A “Build Your Own” function enables users to define and submit thermal solution requirements to Wakefield-Vette thermal design engineers for a solution specific to their needs. A forward-looking architecture will allow new and additional features and functions, such as new design tools, live chat, a customer portal, etc. to be added going forward.

The new wakefielld-vette.com design is compatible with a broad range of user platforms, including tablets, smartphones as well as traditional desktops furthering the commitment to work tirelessly to be the world’s leader in the thermal solutions industry, to make it easy to do business, and to reliably and dependably deliver -- innovative, cost-effective thermal solutions, anywhere around the globe.

About Wakefield-Vette

Wakefield-Vette is a 700-employee strong company with 500,000 square feet of global manufacturing capacity with production facilities in: Pelham, NH; Withee, WI; Taipei, Taiwan; Cary, NC and Dong Guan, China.

Wakefield-Vette designs and manufactures thermal solutions that comprise a wide array of products, including thermal extrusions, LED heat sinks, heat frames and pipes, fans, heat exchangers, coolant distribution units, liquid cold plates, etc, making Wakefield-Vette unique in its ability to deliver the increasingly complex thermal solutions required to meet the thermal engineering challenges of today’s ever-higher electronics packaging densities.

Via an end-to-end global engineering, manufacturing and supply chain, Wakefield-Vette achieves a global reach with a local focus. No matter where the customer is located, Wakefield-Vette has the capability to deliver -- the highest quality, lowest landed cost and shortest time to market.

Wakefield-Vette is headquartered in Pelham, NH USA.
