- 120V – 50/60Hz

CSP706TG

- 7 Surge Protected Outlets
- 4 Energy-Saving Outlets
- 2250 Joule Rating

► What CyberPower customers say:

"Excellent product compared to peers...also priced competitively."

"..CyberPower has had by far the best UPS's that I've ever used."

"The CyberPower UPS was priced considerably less than the current UPS leaders making it an excellent buy for the money. I have been through several power outages and my CyberPower UPS has worked as well or better than my other UPS systems."

Please contact CyberPower for more information on these and other CyberPower products at sales@CPSww.com or 1-877-CYPOWER.
