

## **Scientific Forex: Review Detailing Ciurea's "Secret Forex Code" Released**

SUMMARY: *WealthSpringMarketing.com* the premier Forex trading product review website releases a review of trading icon Cristina Ciurea's scientific Forex trading system.

Cristina Ciurea's popular and previously sold out Scientific Forex trading system has just started accepting a small group of new members. This announcement has sent shock waves through the Forex trading community prompting an investigative review by WealthSpringMarketing.com's Tiffany Hendricks.

"Cristina Ciurea has become something of an icon in the Forex trading world after winning the world's largest, and most prestigious independent trading competition with a 161.12% gain," reports Hendricks. "As a result, Ciurea's Scientific Forex system sold out completely within 24 hours of it's initial release, much to the chagrin of the trader's who were left out. So, when we were informed regarding the limited re-released, we were eager to publish a comprehensive review for our website visitors."

Scientific Forex was developed by Ciurea based on scientifically proven combinations of indicators that when mathematically tested have produced results lauded by the Forex trading community. Several prominent traders have referred to Ciurea's system as a "secret code" in the market which allows one to pin point precisely when to enter and exit the market.

"Scientific Forex has proven extremely popular because it promises users a look into the Forex market through the idea's of a high level mathematician," says Hendricks. "Normal people simply don't have the mathematical understanding to create a system like this for themselves, but they see the advantage and see the results Ciurea and her first batch of students have achieved. It's almost like getting to look over the smart kid's shoulder during a math test."

Hendricks' Scientific Forex review reveals that the system is being offered as a limited re-release. Customers purchasing the Scientific Forex system will receive a DVD training course detailing how the system works, and providing many examples of live trades. In addition members get direct access to Ciurea who works with students until they achieve their desired results. Three bonuses including a "Crossfire Signal Locator", "CandleForce Trader" and the exclusive "CCFX Trade Finder" are also included.
