

SAF-T CONFERENCE

In cooperation with the

SAIA SCAFFOLD & ACCESS
INDUSTRY ASSOCIATION

***Maximum Capacity Media announces
the live Safe Access, Fall Protection &
Training (SAF-T) Conference.***

**The one-day SAF-T Conference is scheduled
for July 24, 2013, immediately following
the SAIA 2013 Annual Convention at
the Renaissance Nashville Hotel in the
heart of downtown Music City.**

The mission of the SAF-T Conference is to promote the safe use of powered access equipment to owners and end-users through discussions stemming from age-old issues to current events. Discussions at the inaugural event will include:

- Safe operation and proper use of access equipment and fall protection in the context of ANSI standards.
- Clarification of the responsibilities and expectations for access equipment training as outlined by ANSI standards.
- The need for an improved level of consistent and high-quality training in access equipment education.
- Guidance on the successful implementation of operator training programs.
- Resources for evaluating existing operator training programs.

Featured presentations and panel discussions will be led by some of the industry's leading authorities on aerial work platform safety.
