ADLIB ®

think efficiency

Adlib PDF Enterprise for SharePoint®

THE LEADING DOCUMENT-TO-PDF TRANSFORMATION SOLUTION FOR MICROSOFT® SHAREPOINT®

Powered by the market-leading, server-based content transformation solution, Adlib PDF Enterprise for SharePoint® enables organizations to increase their efficiency and reduce costs associated with the automation of their Microsoft SharePoint-based document workflows. By intelligently automating the conversion of hundreds of document formats to searchable PDF in the back office, user error is virtually eliminated while dramatically improving efficiency. Adlib PDF Enterprise for SharePoint enables front office employees to focus on their work, not document transformation and storage.

Leveraging the familiar SharePoint user interface, Adlib PDF Enterprise for SharePoint's workflows and document conversions appear transparent to the user, further extending the SharePoint value proposition by making it even easier for people to work together to quickly respond to changing business needs. Adlib content transformation workflows can be used on their own or integrated into more complex workflows created with third party applications such as Microsoft® SharePoint® Designer, Nintex® Workflow, K2® BlackPearl® and many more.

HIGHLIGHTS

- Fast and Accurate Document Transformation
- Apply Watermarks, Timestamps, Security, PDF, Navigation Features and much more…
- Supports Microsoft® Office® and Hundreds of Popular Document Types
- Enterprise Ready Server-based, Scalable Architecture
- Rapid Deployment with Configurable out of the box Workflows

BENEFITS

- Reduced Costs
- Increased Productivity and Efficiency
- Meet Regulatory and Archival Requirements
- Extends and Enhances any SharePoint Deployment
- Optimize Computing Resources
- Create and Configure No-code Solutions

HOW IT WORKS

The Complete Content Transformation Solution for SharePoint®

Taking your organization's variety and volume of unstructured documents…

…and turning them into useful and meaningful information people can use.

INPUTS

Microsoft® SharePoint® 2010

OUTPUTS

ADLIB®

TRANSFORM   AUTOMATE

CONVERT   COMBINE   ENHANCE

TRANSFORM HUNDREDS OF FILE TYPES INTO ASSETS

- PDF
- PDF/A
- PDF/X
- DOC
- DOC/X
- TIFF
- JPEG
- XPS
- TXT
- EMAIL
- HTML

CONVERT

- Accurately transform hundreds of different document inputs including Microsoft Office to PDF with bookmarks and maintain hyperlinks
- Optimize PDF Size
- High fidelity PDF/A conversion for confident archiving
- Optical Character Recognition (OCR)
  - Zonal data extraction
  - Barcode and OMR (Optical Mark Recognition) support

COMBINE

- Merge multiple documents and formats into a single PDF
- Merge the right content in the right order
- Intelligent Hyperlink and Bookmark Management

ENHANCE

- Automatically apply
  - Table of Contents
  - Headers/Footers
- Watermarks/Logos/Disclaimers
  - Index
  - Page numbers
- Document control data such as time/date stamps and status information

SEAMLESS INTEGRATION AND AUTOMATION WITH SHAREPOINT

Integration with Microsoft SharePoint is transparent to the user making document workflows and transformations quick and easy. By leveraging the associated document metadata, the automation of SharePoint workflows is further enhanced by an intelligent metadata rules engine that defines how documents are transformed to meet your changing business needs. (i.e. Add watermarks that reflect the lifecycle state of the document; Include headers or footers that identify the document "pedigree" – Author, Department, Date, etc.)

A Familiar SharePoint User Experience

1 Source Documents in Different Formats
2 Final Consolidated Document
3 Merge Selection
4 Merge Order
5 Document Workflow Status

OUT-OF-THE-BOX WORKFLOWS INCLUDE:

- Convert to PDF / PDF/A
- Convert to PDF with Security
- Convert to PDF with Watermark
- Convert to PDF with Headers & Footers
- OCR – Convert image files to searchable PDF
- Merge Multiple Documents to PDF

Whether it's streamlining information flow, adhering to regulatory compliance or simply archiving documents, the need to automatically convert documents into a standard, searchable, repurposeful format is an increasing challenge faced by IT management. When document fidelity and flexibility are important, the world's largest companies choose Adlib PDF Enterprise for SharePoint.
