The Leader's Role in Making Meaningful Use ... MEANINGFUL! Ensuring Safer, Higher-Quality, and More Efficient Care through Meaningful Deployment of HIT

Wednesday, May 8, 2013

The HiTech Act and Meaningful Use incentives were designed to support the Triple Aim and National Quality Strategy, but as the incentives wind down, leadership is left to decide how to maximize the HIT infrastructure that organizations have invested in while facing increasing scrutiny about attestation and the ever-changing requirements. This program will include perspectives and lessons on how leaders can move their organizations through the current and future critical phases of HIT deployment with best-practice examples of improving patient safety and reducing technology-associated risk.

Program Facilitator and NPSF Board Liaison:

Jonathan B. Perlin, MD, PhD, MSHA, FACP, FACMI, President, Clinical Services and Chief Medical Officer, HCA, Inc.

Faculty:

Pamela F. Cipriano, PhD, RN, NEA-BC, FAAN, Senior Director, Galloway Consulting

Karen B. DeSalvo, MD, MPH, MSc, Commissioner of Health at City of New Orleans

Terhilda Garrido, VP, HIT Transformation and Analytics, Kaiser Permanente

Leslie Kelly Hall, Chair, National eHealth Collaborative

Gerald B. Hickson, MD, Assistant Vice Chancellor for Health Affairs Associate Dean for Faculty Affairs, Vanderbilt University; Chair, NPSF Board of Directors

Ronni Solomon, JD, Executive Vice President and General Counsel ECRI Institute

Paul Tang, MD, MS, Vice President, Chief Innovation and Technology Officer, Palo Alto Medical Foundation and Consulting Associate Professor of Medicine at Stanford University; Chair, Health Information Technology Policy Committee

Karen P. Zimmer, MD, MPH, FAAP, Medical Director, ECRI Institute PSO, Medical Director, Patient Safety, Quality, and Risk Group

Objectives

After this session, participants will be able to:

- Summarize the current state of deployment of HIT and associated benefits in achieving the meaningful use objectives and in improving outcomes and efficiency
- Discuss potential unintended consequences of HIT deployment and strategies for mitigation
- Identify the key leadership responsibilities and actions to ensure safe, effective deployment of HIT
- Outline strategies to prepare leadership for emerging applications of technology to support care coordination, population health and patient engagement

8:30–8:45 AM	Welcome and Opening Remarks Jonathan B. Perlin, MD, PhD, MSHA, FACP, FACMI , President, Clinical Services and Chief Medical Officer, HCA, Inc.
8:45–10:00 AM	Opening Keynote: A Vision for How Connected Information Supports Safer, More Effective and Compassionate Care Paul Tang, MD, MS , Vice President, Chief Innovation and Technology Officer, Palo Alto Medical Foundation and Consulting Associate Professor of Medicine at Stanford University, Chair Health Information Technology Policy Committee
10:00–10:45 AM	Lessons Learned When the Stakes are High Karen B. DeSalvo, MD, MPH, MSc , Commissioner of Health, City of New Orleans
10:45–11:00 AM	Break
11:00–12:30 AM	Intentional Safety: Unintended Consequences <i>Case Study: Lessons Learned from a Health IT Incident</i> Ronni Solomon, JD , Executive Vice President and General Counsel ECRI Institute Karen P. Zimmer, MD, MPH, FAAP , Medical Director, ECRI Institute PSO, Medical Director, Patient Safety, Quality, and Risk Group
12:30–1:00 PM	Leadership Vignette Gerald B. Hickson, MD , Assistant Vice Chancellor for Health Affairs Associate Dean for Faculty Affairs, Vanderbilt University; Chair, NPSF Board of Directors
