

Faye Business Systems Group (FayeBSG) is a Technology Consulting Firm and Software Company with over 25 years of experience helping growing companies become more profitable by working with them to optimize their financial and business systems.

As a leading SugarCRM Gold Partner, FayeBSG is recognized throughout the SugarCRM community for their years and breadth of experience in developing custom applications, add-ons, and integrations for Sugar. The reseller program for our Sugar add-ons gives Sugar partners the ability to complement their own offerings to their clients, fill in the requirement gaps when working with prospects, and ultimately close more deals.

Let us help you grow your business.

Additional FayeBSG services available to Sugar partners include software development (Sugar and other), project management, implementation management, consulting, data migrations, training, and support.

Over the years, we've assisted resellers to develop custom software, support users and integrate Software systems with a variety of other applications including CRM applications, marketing applications, payment systems and accounting software.

Welcome To The Software You've Always Wanted....

As a FayeBSG reseller, you will have access to resell all current integrations and any new products, add-ons, upgrades and updates as they become available. Our in-house developers continue to innovate, update and upgrade existing integrations with exciting new features and functionality based on your feedback. Be a part of the product development process!

Current Integrations include:

Price \$ 1,499 - \$2,499/year
Editions: Pro, Corp, Enterprise, Ultimate

Having critical invoice and sale information available to your marketing and sale teams can be the difference between making a sale or losing a sale. Harness the power of SugarCRM and QuickBooks while streamlining operations and minimizing double entry work. Price variation depends upon version.

Price \$ 499/year
Editions: Pro, Corp, Enterprise, Ultimate

Eliminates double entry by syncing accounts and contacts, email addresses, marketing lists, campaign results, individual email tracking, and removal results. Utilize SugarCRM's reporting and workflow engines based on results from Constant Contact.

Price \$ 2,000/year PROFESSIONAL
Editions: Pro, Corp, Enterprise, Ultimate

Automatically synchronize Sage 100 Standard ERP and Sage 100 Advanced ERP (MAS 90 and MAS 200) with your SugarCRM. Bi-directional syncing of customers and products. Push sales history and open invoices into SugarCRM and quotes/orders to Sage.

Price \$ 4,000/year ENTERPRISE
Editions: Pro, Corp, Enterprise, Ultimate

All of the power of Sage Professional, but with the additional capabilities to sync multiple Sage 100 ERP companies to one instance of Sugar, compatibility with Sage 100 Premium SQL, and includes the ability to map standard and custom fields between Sugar and Sage 100 Premium ERP. Unlimited 9-5 PST support for the integration.

Price \$ 3,000/year
Editions: Pro, Corp, Enterprise, Ultimate

Integrate SugarCRM with the fastest growing cloud accounting and ERP software package. Streamline the "quote to cash" process to reduce the time it takes to get paid. Save valuable time by eliminating double entry.

Price \$ 499/year
Editions: All

Securely process credit card payments right from within SugarCRM while being in a complete compliance of all credit card laws. Reduce errors and manpower required to process transactions with the Authorize.NET integration. Charge directly from any Account, Contact, Lead, or Quote.

Easy Online Purchasing.
