Secure**Ninja** Capability Statement

SecureNinja provides highly specialized information security training and information security services. SecureNinja's security services team are world renown information assurance practitioners and award winning instructors who have contributed to national security policy and frequently speak at FISMA, NIST, DHS and industry related events. SecureNinja's training and certification programs run the gamut from foundation level security to advanced hacking and CISSP courses. We provide Government DoD 8570.1-M compliance training and have developed a course mapping aligned to the National Initiative for Cybersecurity Education (NICE) which fosters the development of a highly skilled National Cybersecurity workforce.

Security Services

- IV&V Security Assessments
- Penetration Tests
- PCI Compliance
- HIPPA Compliance
- Internet Footprinting
- Wireless Security Assessment
- Security Policy
- Security Awareness Training
- Cloud Computing Security

SecureNinja's services/consulting provides high quality information security assessment services that provide the customer with clear and concise risk information. Each of SecureNinja's offerings assesses the security posture of key technology layers within an organization's environment. Each engagement is delivered by a team of experienced security professionals that leverage cutting edge technology and a proven methodology.

SecureNinja also specializes in governance, risk and compliance programs for government agencies including information assurance, IV&V security assessments, and cyber-security solutions. SecureNinja has the knowledge and experience to keep your sensitive information safe.

Security Training

- Accelerated Immersion Training
- Award Winning Curriculum
- Expert Instructors
- Highest Pass Rates
- Exam Pass Guarantee
- Pre/Present/Post™ Mentoring
- DoD 8570.01-M & NICE Compliance
- WIA,VA & GI Bill Post 9/11 Approved
