

eWASTE EXPRESS

Dispose and Recycle your old Computers and Electronics.
Fast. Easy. Free.

Serving businesses and consumers in the United States.

Hassle-Free IT Asset Disposal

We provide businesses a hassle-free, professional recycling solution to responsibly dispose of electronic waste. eWaste eXpress will help your corporation achieve compliance with state and federal laws and further your corporate commitment to protecting the environment.

1 Pickup & Transportation

eWaste eXpress will arrange the pickup and transportation of your electronic waste from your business location to our warehouse.

2 Inventory Cataloging

For an additional fee, we will stack, palletize and electronically catalog serial numbers for customer records before the asset is removed from the customer premise

3 Disassembly

Each unit will be disassembled and sorted based upon their recyclable properties and whether or not they contain hazardous materials. This process is performed with full compliance to EPA standards.

4 Data Destruction

For an additional fee, we will provide secure onsite data destruction. Our staff will visit your location and wipe all hard drives onsite ensuring data destruction before we leave the customer premise.

Fast. Easy. Free.

Unlike our competitors, our basic recycling service is free. If you just want a simple pickup and your items are organized in a single location, simply call us and schedule a pickup.

Secure Onsite Data Destruction & Serial Number Cataloging

We also offer a menu of fee-based professional services. Contact us for a free consultation.

Call toll-free **855-213-5225**
to schedule a **FREE** pickup or consultation.
