SUBSCRIBE TO A NEW WAY OF THINKING

Elijah offers a revolutionary subscription-based e-discovery services model to our enterprise clients—ESI^Q, which delivers a unique combination of expertise, responsiveness and cost certainty.

Our experts provide a turnkey solution for data preservation, culling, processing, hosting and production, all at a predictable flat monthly rate guaranteed to fit within your legal budget. Our sophisticated analytic and early case assessment tools minimize legal risks and reduce expenses associated with burdensome document review.

With our unique ESI^Q system, Elijah becomes your in-house e-discovery expert, interfacing with IT, legal and management resources to deliver efficient and defensible solutions. Outsource your e-discovery needs, minimize your risks, reduce your costs, and focus on your core business—Elijah's ESI^Q system represents a win-win-win for enterprises of all sizes.

ARE YOU:

- Facing mounting e-discovery costs and budgetary uncertainty?
- Struggling with confusing vendor pricing models?
- Lacking a uniform approach to managing your electronically stored information?
- Forced to decide between reducing business risks and controlling legal expenses?

If you answered **yes** to any of these questions, contact Elijah today for a **free** ESI^Q consultation. Call **866.354.5240** and ask to speak with an ESI^Q solution architect.

ESI^Q OFFERS:

- **MANAGED SOLUTIONS:** We provide turnkey e-discovery services for your enterprise at a fixed monthly rate
- **ADVANCED ANALYTICS:** Allows you to perform early case assessments and dramatically reduces document review costs and turn-around times
- **HOSTED REVIEW:** Grants your in-house and outside counsel the opportunity to fully collaborate on even the largest of matters
- **PEACE OF MIND:** Insulate your organization from legal risk by outsourcing e-discovery functions to an industry expert with a track record of delivering efficient, defensible solutions

THE ESI^Q PROCESS

INSIGHT: Analyze your existing ESI landscape to determine:

- where inefficiencies reside
- what has worked well
- how to improve results and save your organization money

DESIGN: Customize a turnkey e-discovery solution provided at a fixed monthly rate, minimizing your risks and costs while providing financial certainty that meets your budgetary needs

IMPLEMENTATION: Implement systems to harvest data in a forensically sound manner without disrupting employee productivity; establish a worry-free, collaborative process to identify the data you need and provide a robust, cutting-edge review platform

MANAGEMENT: Maintain regular e-discovery workflows and ensure that as your technologies evolve and needs change, our processes continue to exceed requirements and expectations
