iPad – User Manual

English : http://manuals.info.apple.com/en_US/ipad_2_user_guide.pdf

Traditional Chinese : http://manuals.info.apple.com/zh_TW/ipad_2_user_guide_ta.pdf

Simplified Chinese : http://manuals.info.apple.com/zh_CN/ipad_2_user_guide_ch.pdf

(I) Activate your new iPad with iTunes

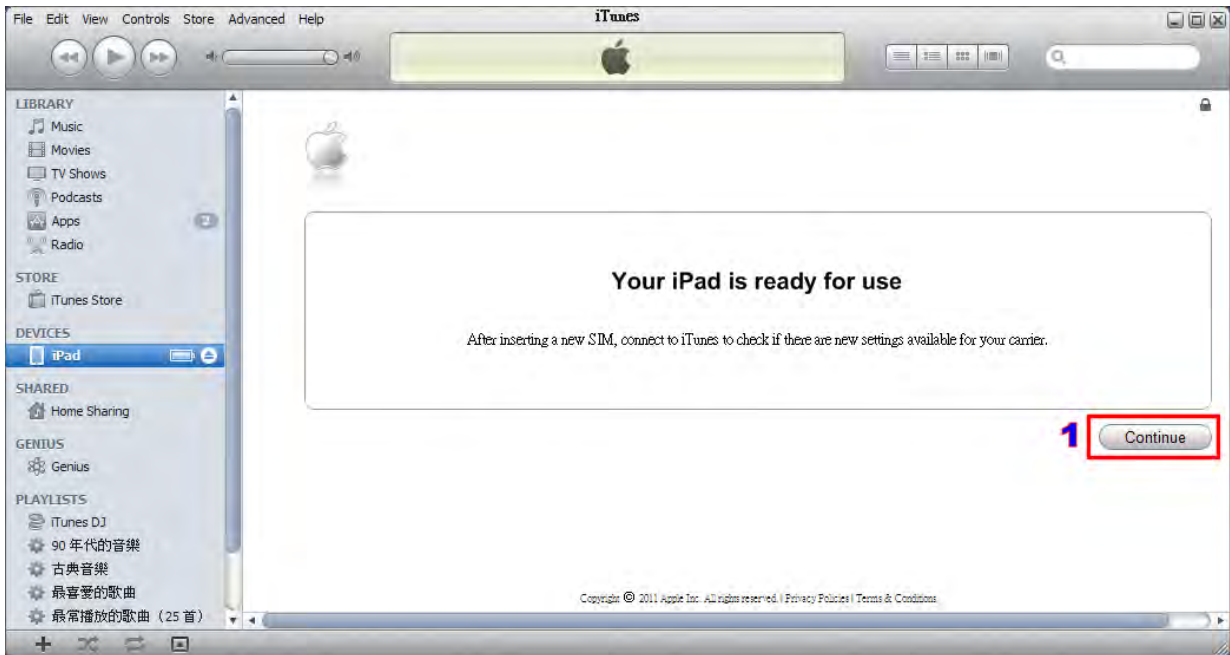

Before you can use iPad, you must use iTunes to activate and set it up. You can also register iPad and create an iTunes Store account (i.e. obtain an Apple ID which is required for downloading iPad apps from Apple Store) if you don't already have one.

1. Download and install the latest version of iTunes from www.itunes.com/download .
2. Power On your iPad, then connect it to a USB 2.0 port on your Mac or PC using the cable that came with iPad.

(II) Create an iTunes App Store account (Optional)

An App Store account is required when you download (or purchase) new apps (application) before installing to your iPad. It is optional if the build-in applications already installed in your iPad satisfied your needs.

The account creation process in App Store normally requires you to enter your credit card information for payment of purchased apps or Apple products in the future. However, you can skip entering the credit card information by following the procedures in webpage "Create an iTunes App Store account without a credit card" <http://support.apple.com/kb/ht2534>. By doing so, you can only download "Free Apps" from the store.

iPad 2 Basic Setup Guide

To create an App Store account with credit card information, double-click your iTunes application icon on your Window desktop to invoke the iTunes. Select [Store → Create Account ...]

Follow the steps to complete the account creation process.
