

Infor SyteLine

Get new capabilities with Infor 10x

Extend and enhance the value of your Infor™ software solution by taking advantage of new business features and technologies delivered through Infor 10x, the latest release of Infor's proven business applications. Upgrading will give you access to new capabilities in the areas of social business, mobility, analytics, and integration. You'll also benefit from major enhancements across Infor's core product lines, including Infor SyteLine.

Experience the new Infor SyteLine

Unlock the potential of your people and capabilities and get software that works the way you think with the latest release of Infor SyteLine. You'll be able to expand your capabilities, get a new look and feel, take advantage of additional industry-specific capabilities, and increase visibility into your business at all levels. The new release of Infor SyteLine expands the core capabilities of this solution in a number of key ways, including:

- **Access to new applications for time tracking and warehouse mobility.** From increasing efficiency to working untethered on your warehouse floor, Infor SyteLine 10x gives you new ways to build competitive advantage.
- **Expanded Infor ION enablement** that allows for fast, simple, and seamless integration with both Infor and non-Infor applications. Extend the value of your Infor SyteLine solution with best-in-class solutions from Infor.
- **A new modern user interface** that give users a familiar, easy-to-use environment designed to increase productivity, let employees easily find the information relevant to their jobs, and even have data delivered automatically to them. Once you experience it, you won't be able to imagine how you ever worked without it.

Infor 10x represents the evolution of our technology platform, which features purpose-built middleware, as well as social, mobile, analytics, and cloud solutions.

- **Expanded industry functionality** in the areas of automotive suppliers and printing and packaging. You get a compelling, out-of-the-box solution for these market verticals, allowing you to work more efficiently, achieve a very fast time to value, and lower your overall total cost of ownership. And there's no need to worry about your existing functionality. All upgrade paths are preserved.
- **Enhanced business intelligence tools** that give you expanded visibility of your business at all levels. You'll be to reduce the time required to make decisions and improve their quality.
- **Access to Infor's social collaboration system, Infor Ming.le**, which delivers business process improvement and contextual analytics. You get the most innovative social collaboration technologies translated into a business environment and fully integrated across business processes. From collaborating alongside your Infor SyteLine solution to "following" people and objects, you'll solve problems and get work done in ways you never thought possible.

Increase the value of your solution and make the most of your maintenance investment by upgrading your Infor SyteLine solution.
