What do you get for your money?

- **The Instant Pip Method:** This is a short, sharp and quick hit method of trading. You get detailed, step by step trading rules that make currency pair moves work for, and not against, the Forex trader.
- **Pip Maximizer 1 Method:** This is a trading method that plays a little more of a long game, aiming for you to take between 300-500 pips on average over a one to three week period.
- **Pip Maximizer 2 Method:** This works to complement the Pip Maximizer 1 method. When used in conjunction with its partner, it really does ramp up the chances of you managing to jump aboard and ride the profits that major market moves offer.
- **Pip Reversal Method:** As the name suggests, this is a counter trend form of Forex trading that allows you to take full advantage of market divergence.

Pros of the Program

- Probably the biggest 'pro' of the Forex Profit Accelerator 2.0 system is that you honestly can cut your trading down to 20 minutes per day. That's no fancy schmancy marketing blurb – it really is a fact. And just think what you can do with all that extra time you've gained, not to mention the extra money that you're gonna make once you start trading in this powerful method.
- You certainly won't be disappointed by the amount of information you get with Forex Profit Accelerator 2.0. In fact, you might even feel a little overwhelmed by the amount you actually received. But this is well recognized by Bill, and dealt with by the quick start sheets and trading blueprints that really do exactly as they promise.
- As well as your email support, the system also give you online group coaching sessions that further increase your knowledge.
- And Forex Profit Accelerator 2.0 doesn't just teach you and then give up. Because as you become more knowledgeable, and therefore talented at your trades, you move onto becoming a truly independent trader. All the time taking full advantage of the many years of Bill's experience.

Cons of Program

- Well, there's no miraculous method of making money. So you are going to have to put some work into understanding the trading methods. But, the step-by-step guides make your learning simple, not to mention fun to follow. After all, what can be more enjoyable than learning how to make the money you need, and that will give you the freedom and ability to do all those things that you probably only dream of right now...

So Who's Bill Poulos?

Okay, so Bill is a guy who's been trading for a long, long time. Since 1974, to be precise. And in that time he happily admits that he's made a fair few errors. But it's only making these mistakes that you can learn from them, and it was only this long, long learning curve that gave him the knowledge how to win big on the Forex market. Forex Profit Accelerator 2.0 is the culmination of all that hard-won education, put together in a simple to understand method that means you too can trade using nearly four decades of experience.
