

WHY ECI?

With so many vendors offering HR-related services, how do you know which one to choose? ECI® Empower is more than a software vendor; we are an extension of your business - we are your partner.

ECI Empower software is a cloud-based, single-source SaaS application that was built from the ground up. Single-source means your data is stored in one single database, requiring much less entry of repetitive employee data.

Our fully-integrated Human Resource Information System (HRIS) Solution manages the entire employment life cycle, from pre-hire to retire.

ECI conducts an initial systems analysis with all prospects as well as clients requesting additional products to help identify the current HRIS/ Payroll support system, current and future requirements and discuss manual processes that may be automated. The objectives of this analysis are to develop and propose a fully integrated solution and an expectation of a “no surprises” implementation.

Empower

Dedicated Support Team

Implementation Specialists

ECI maintains a commitment to customer service and client retention by offering not just GOOD customer experiences, but EXCEPTIONAL ones. We refer to our service methodology as our “Customer for Life” program, which is evident by our exceptionally high client retention rate.

ECI’s Implementation Management (IM) process is a critical value-added step into your relationship with ECI. Each aspect of ECI’s IM services will allow you to rethink what you expect from a Payroll/HRMS provider. Our approach is unique in the sense that we are not simply converting data; we are with you every step of the way.

Visit us today at www.ecipay.com and discover how ECI® Empower can help you track critical employee data, allowing you to save time and money.
