FOR IMMEDIATE RELEASE

TWC Aviation Announces Point-to-Point Pricing and Boutique Experience on Falcon 2000LX Aircraft

TWC Aviation announces point-to-point jet charters every day to cities nationwide aboard a large-cabin Falcon 2000LX. Jet charter clients will enjoy a boutique travel experience and an impeccable onboard experience.

SAN JOSE, California (May 21, 2013) — TWC Aviation today introduced a new point-to-point, jet charter offering, featuring set pricing and a boutique travel experience aboard the large-cabin Falcon 2000LX. With this new program, clients who want a spacious, stand-up cabin can conveniently access TWC's fleet of Falcon 2000LX aircraft under a point-to-point pricing model. With one of the largest and most quiet cabins in its class, a 480-knot cruising speed, and highly fuel efficient engines, the Falcon 2000LX sets the standard for fast, luxurious jet travel.

A Boutique Travel Experience

TWC has assembled an elite team of cabin attendants exclusively for these Falcon 2000LX aircraft. They will prepare seasonal cuisine according to the time of day, length of flight, and client preferences. Their impeccable personal service will create a unique in-flight experience that caters to the needs of each and every passenger.

"TWC has elevated conventional one-ways into a boutique, point-to-point jet charter experience," said Paul Class, Senior Vice President, Charter Services, at TWC Aviation. "Our clients will experience a new level of attentive service in the spacious 2000LX cabin. Set pricing and consistent availability eliminate the need to wait for an empty leg. There are no overnight charges, and it is easy for clients to book their flights."

To book a point-to-point jet charter flight on a Falcon 2000LX, email jetcharter@twcaviation.com or call +1.800.538.6070, www.twcaviation.com/boutique.

About TWC Aviation, Inc.

TWC Aviation provides aircraft management, sales and acquisitions, jet charter, and jet card services to clients worldwide. TWC Aviation manages a diverse fleet of more than 60 business aircraft throughout the U.S. and abroad, with offices in San Jose, Los Angeles, and New York. The company's fleet includes jets from Bombardier, Dassault, Hawker, Cessna, Embraer, Gulfstream, and Boeing Business Jets. TWC Aviation is audited by independent safety organizations: IS-BAO, Wyvern, and ARGUS. Aircraft operate under FAA Air Carrier Certificate BZUA138N. TWC also maintains an FAR Part 145 Repair Station certification. More information is online at www.twcaviation.com.
