# content creation simplified buncee

buncee® is a new online and mobile platform that gives you easy-to-use tools to create stunning and interactive digital content, whether promoting a product or business story, creating digital educational lesson plans, or customizing e-greetings, invitations and more.

By leveraging the capabilities of online tools and iOS devices, buncee makes it easy for even the most 'non-technical' individuals to create and share engaging and interactive multi-media creations that can be shared publicly or privately.

## What is buncee.com?

buncee.com is a web platform that provides users with multiple easy-to-use tools to add personal photos, text, drawings, and online content such as YouTube videos, Soundcloud audio, Flickr, Google, or Instagram images into a digital canvas called a 'buncee' that can be shared among all your social networks and private contacts with just a few clicks.

## Is buncee Mobile?

Indeed! buncee's mobile apps, 'buncee bits' for iPad and iPhone, and 'buncee pro' for iPad give users a quick and easy option to create fun buncées on-the-go!

## buncee... Helps Businesses Sell!

buncee.com is a simple way for any business to create content that helps sell their products and services. By leveraging built-in design elements, backgrounds, fonts, and web links, creating interactive sales and promotional marketing materials has never been faster!

## Teachers 'Flip' for buncee.com!

Educators and students love the creative way they can create interactive flash cards and lesson plans. Teachers who are flipping their classrooms can easily include screencasts and notes in interactive study guides.

## buncee... Made to Share!

Creating buncées is easy, so is sharing them with the world...

With a few quick clicks you can instantly share and post your buncées on your favorite social networks.

Creative bunceeing can revolutionize your social media presence by adding an unforgettable visual impact to all your messaging, whether personally to friends and family or professionally to clients and contacts.

Rather than using a text based "Happy Birthday" post on your friend's Facebook wall, surprise them with a one-of-a-kind birthday buncee, and gift them a wish that they will actually remember!

Instead of writing about your new product line on your company's Facebook page, create a buncee collage highlighting a solution with images and links to your website, and truly capture people's attention.

Reuse them! For example, with just a few clicks you can easily share the same product line buncee and post it to your Pinterest account as well - making it easy to create and share engaging interactive content packed with visual appeal.

Enhance your blogs by sharing your ideas and inspirations in a beautiful way; create a buncee about your passion and embed it directly into your post. It's also a great way to highlight a product review or how-to post.

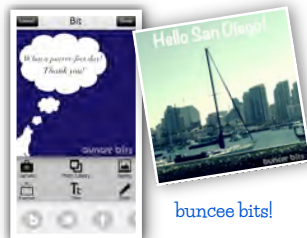

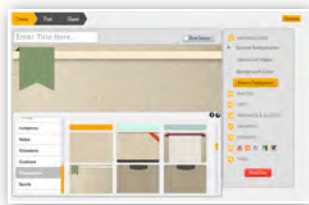

Love the inspirational quotes you find on the web? Put your own inspirational sayings into a buncee and share your strength & positivity with followers by tweeting your buncee directly into your feed.

With just a few quick selections post the same inspirational buncee on your tumblr account as well and share your images of wisdom with a whole other community.

## buncee.com... Content Creation Simplified!

Whether you want to say 'hello', sell your products or services, learn a lesson, share ideas, thank your clients, throw a party, or make a loved one smile, buncee.com makes it fast and easy to create stunning, interactive shareable content. In minutes, anyone can select from a wide collection of beautiful backgrounds, design elements, fonts, and colors, to make digital greetings and content that is sure to stand out!

buncee bits!

Getting started is free, simply setup an account on buncee.com and you'll have access to our endless digital canvas where you can instantly create stunning mashups of your favorite photos, videos, links, music and more. Create digital scrapbooks, announcements, vacation memories, how-to guides, look books - you are only limited by your own creativity and imagination. buncees are as easy to share as they are to make. Once completed, they can be shared via email or on any of your favorite social networks.

### Key Features of buncee.com:

- buncee's digital canvas allows you to add unlimited online and digital content
- Choose from hundreds of high resolution backgrounds
- Upload personal photos, YouTube videos, Instagram, Flickr, YouTube, Google images, Soundcloud audio and more
- Add your own drawings or select from a full gallery of pre-styled messages, stickers, and design elements
- Add active links to your images and text to create an interactive experience
- Fully integrated with social networks for ultimate sharing & posting flexibility
- Getting started at buncee.com is free!

### buncee gives back!

The creators of buncee were inspired by their desire for a more flexible and creative way to send digital thank yous, updates and event follow-ups to supporters of their family's charity, the **Daniella Maria Arturi Foundation for Diamond Blackfan Anemia (DBA)**, named in honor of their daughter who lost her life to DBA, a rare blood disorder often identified before a child's first birthday.

It is the hope of the creators of buncee that by building an easy platform for users to enjoy a fun and interactive way to create and share their memories, interests, causes, greetings and more, buncee will become a platform used by millions and in turn help generate proceeds to raise awareness and funding to find the cure for DBA.

To read the full story behind buncee's philanthropy, and to learn more about DBA, visit the Daniella Maria Arturi Foundation website:

### buncee bits or buncee pro... When you're on the Go!

Got a great photo on your iPhone you'd love to share? buncee bits makes it easy and fun to stay in touch with your friends, family, clients, and supporters! Simply choose one of the colorful backgrounds from the buncee gallery or use a photo from your own collection and personalize it with text, drawing, frames and filters – then easily share your buncee bits via mms, email, buncee and all your favorite social networks.

Need a larger canvas to explore your creativity? buncee pro for iPad gives you that and more ~ it's also great fun for kids!

### Key Features of buncee Mobile Apps:

- Universal app that runs on iPhone, iPad, and iPod touch (including iOS 6.0)
- Hundreds of high resolution backgrounds to choose from
- Open images directly from your photo gallery or by using your camera
- New filters and frames to customize your photos or backgrounds
- Save final bits to your photo album, print them out, or share them via buncee, Facebook, email, mms, tumblr and twitter
- buncee bits app is FREE!

We're thrilled that buncee's mobile apps are frequently featured on iTunes' "What's Hot"!
