

Creating Extraordinary Dreams With Ordinary Budgets, Be Creation Is Making Waves

Respected Los Angeles creative boutique BeCreation, LLC is proud to announce the inclusion of five new artists/projects: Carrie Ca\$h, House of Vibe Allstars, Quiet As Kept, The Delirians and Soul Nana

In the vein of Fight Club meets Kinky Boots, Carrie Ca\$h is a psychologically thrilling short film about a timid man struggling with his alter ego, a drag queen. Emmy nominated Fern Champion is on board as casting director for this amazing project.

Chali 2na's (Jurassic 5/Ozomatli) supporting band House of Vibe has been dubbed, by some, as the West coast's version of The Roots. These All Stars can be found every Wednesday night at Harvelle's in Santa Monica. Depending on the night this fearlessly experimental collective give off a strong Robert Glasper project type vibe, west coast style.

The Independent feature film Quiet As Kept is in preproduction preparing to launch their buzz trailer and indiegogo campaign which includes cast members Jensen Atwood from *Noah's Arc* and Janora McDuffie from *Grey's Anatomy*. It's a film about family, the secrets that break us and the love that makes us whole. Tyler Perry has nothing on this family drama.

What happens when James Brown and Bob Marley collide with a young latin band? The Delirians, are born. Under the management of Philip "Fish" Fisher (Fishbone) and Enterwerks Entertainment Group these young men are preparing to release their next album.

Representing Ghana and Cali, Hip Hop Artist Soul Nana is making waves with releases like "Illegal Alien" and "Dedicated" from his upcoming album *Planet Afrika*. Soul Nana, the son of Rim Kwaku Obeng, a famous West African drummer who played for Fela Kuti, is continuing the legacy and leaving his own mark on music.
