Tag. You're not it.

Is your SEO working hard or hardly working?

And how do you know if your SEO is the best it can be? You can track impressions, reads, clicks, visits and more, but the key areas to follow are search term appearances and inbound leads. Video SEO delivers on all of the above.

Our Video SEO is an advanced, powerful, proven SEO system that leverages the combination of video and text to get attention, pick-up and buy-in for your messages.

Gravelsins | Bonsell is a creative communications boutique that specializes in Video SEO and Video PR campaigns. We also do marketing, design, artwork and writing for print and web.
