Inspections Manager

A smarter, simpler (and mobile!) way to mange your buildings, equipment and tenant inspections.

Unlike paper-based inspections, the **Inspections Manager** is as nimble as your business. Complete inspections from any mobile device, create ad-hoc inspections in the field, or initiate work orders on-the-spot.

The **Inspections Manager** empowers your team to take immediate action on results and makes it easy to establish targets and escalations that enable you to manage by exception.

Key Benefits

- Deploy inspections in minutes with a flexible builder.

- Create and complete inspections **from any mobile device or platform**- online or offline!

- Capture and **attach photos to inspections**.

- Create **ad-hoc or scheduled** inspections.

- **Initiate work orders** while performing inspections or automatically upon failures.

- S**core inspections** to evaluate performance against targets.

- Automate **escalations and notifications.**

- Easily spot problems or trends with the rich visual summary reporting of the **Analytics Dashboard.**

- Download **branded inspections reports**.

Simple and Powerful

" The reporting views are exactly what makes the system so powerful! It greatly simplifies our ability to manage inspection data. "

- Paul Wubbolts, CREIT
