

## **Future Of Wealth: Review Examining Anik Singal's Financial Freedom Training Released**

Summary: *HonestyFirstReviews.com releases a review of Anik Singal's newly released personal development course "Future Of Wealth" which claims to provide users with the scientific mind methods needed for achieving financial freedom.*

The Future Of Wealth a new training course from marketing guru Anik Singal has just been released creating a buzz of excitement throughout the online marketing community, prompting an investigative review from HonestyFirstReviews.com's Tiffany Hendricks.

"While there are no shortage of books, seminars, or trainings on the psychology of wealth, we were still eager to review Anik Singal's new program for our website visitors most of whom are entrepreneurs or small business owners," reports Hendricks. "Singal has a unique background having created a multimillion dollar marketing empire from scratch in just a few short years, and we anticipate that his take on the psychology of wealth will resonate with our followers."

As Hendricks' review explains, Anik Singal was able to grow a multimillion dollar online marketing business in just a few years, a feat that led to widespread media attention and recognition from BusinessWeek and the Inc. 500. However, shortly thereafter Singal was nearly bankrupt, and was forced to delve deeply into the psychology of wealth in order to regain control over his finances. In the Future Of Wealth program Singal shares the scientific mind methods he developed and used personally to aid in his financial recovery.

"Certainly anyone who has read any personal development books is familiar with concepts like 'the law of attraction', and while some find positive thinking beneficial, others struggle to take this approach seriously," says Hendricks. "The Future Of Wealth course will appeal to those who are seeking a more scientific approach to mental training. The program includes an array of technological resources customers can use to experience the latest developments in visualization and brainwave research."

The Future Of Wealth is available digitally online allowing customers instant access to all training materials, and exercises, as well as Singal's patented Wealth Mind Tracker technology. **[Those wishing to purchase the Future Of Wealth, or for more information, click here.](#)**
