

IF YOU'VE GOT SIX MINUTES,
**WE'VE GOT A TON
TO TALK ABOUT.**

INTRODUCING THE GRIZZLY SUPER 80

CRANITECH
EDUCATION
S Y S T E M S

10 TONS PER HOUR. WHAT MORE DO WE NEED TO SAY?

**WE COULD GO ON
AND ON ABOUT OUR
NEW BEAST OF A
TIRE AND SCRAP
GRINDER, BUT THE
FACTS PRETTY
MUCH SPEAK FOR
THEMSELVES.**

THE HIGHEST CAPACITY IN THE INDUSTRY.

The Super 80 produces the biggest volume out there—plus a smaller, higher quality product. That means a ton of profit every six minutes.

- Higher Torque
- Higher Horsepower
- Slower Speed
- Lower Noise

PROVEN DESIGN AND DURABILITY.

After 15 years of Grizzly development and 1,500 hours of field testing, the Super 80 is the most efficient, hardest-working machine you've ever seen.

- Serrated, Multi-Edge, Reusable Knives
- Larger Shafts and Bearings
- A Solid, One-Piece Forged Rotor
- A Higher-Capacity Gearbox
- Replaceable Wear Plates
- Two-Piece Screen Design

RECORD-SETTING PERFORMANCE.

From tires and electronic scrap to aluminum and waste-to-energy, no other machine delivers like the Grizzly Super 80.

- Minus-3/4" Mulch Quality Crumb Rubber
- Cleaner Steel Wire
- The Highest Throughput of Any Grinder
- Greater Durability
- *And we'll say it again: 10 tons per hour capacity*

**If you want to hit 80 tons per shift, you
know who to talk to.**
