

Newly-Launched TemplateHaven.com Unveils Complimentary Retirement Savings Calculator

Retirement Savings Calculator Just Part of the Vast Collection of Complimentary Templates on New Site

Whether it's for the home or office, it's very difficult to be successful and ultimately happy without the proper tools. Finding the right tools to get the job done in the sea of minutia online can be a daunting task.

Now, the newly-launched TemplateHaven.com is offering these tools to everyone simply for visiting the site. In celebration of hitting the World Wide Web, Template Haven is offering complimentary templates, such as the retirement savings calculator, to all new visitors.

"We had a specific vision in mind when we created this site," said Template Haven spokesperson Mary Flynn. "Our sole focus is to provide people with all the helpful tools they need to be successful in every facet of life."

The retirement savings calculator is just part of the vast collection of new calculators, templates and spreadsheets available on the new site. In addition to Excel templates, Template Haven has a litany of templates for Word, PowerPoint, Outlook, Publisher and Visio. All templates featured on the site are instantly downloadable and completely complimentary.

"Whether you need a printable calendar in Word format, a personal health record template in Excel or a sales strategy template in PowerPoint, we've got you covered," said Flynn. "We upload new templates on a daily basis and we are committed to becoming a leader when it comes to helpful online tools."

Retirement is far from the only category covered on the new site. There are personal and family budget sheets for the home, sales and marketing templates for the office, wedding and party planners for big events and so much more.

"At Template Haven, we're just getting started," said Flynn. "The initial positive feedback has been overwhelming and we're just scratching the surface. The best is still to come."

For the retirement savings calculator, as well as dozens of other calculators, templates and spreadsheets, please visit TemplateHaven.com.
