IF YOU ARE OVER 55 AND SUFFER FROM:

- NUMBNESS IN THE HANDS
- PAIN IN THE KNEES
- STIFF JOINTS
- BACK PAIN

TRY...

**ESSENTIAL
SOURCE®**

“I started using Nopavera for my neuropathy in my hands. Its hard to tell you how much my mornings have changed. I don't need any help getting dressed anymore, I can carry a cup of water, and put my own shoes on. I started the drops on my 50th birthday this past January and my hands are pain free and back to being hands again! I don't plan to stop using this amazing product!”

Thank you ,
Ms Henri Lynn Lowary
Helotes ,Texas

NOPAVERA contains a highly concentrated dosage of Prickly Pear Betalain which has been shown to be a natural free radical scavenger with antioxidant properties.

NOPAVERA has shown to be an effective relief for the following health problems:

Muscles, joint and body inflammation – causing joint, muscle and body pain

Respiratory inflammation – causing allergies and breathing difficulties

Arterial inflammation – causing heart health problems

Digestive tract inflammation – causing bloating, cramps and burning

Widespread body cell inflammation – causing overall fatigue

What is **NOPAVERA**?

Nopavera is a great tasting, sublingual wellness supplement sourced from the fruit of the Nopal cactus (Opuntia Ficus Indica). The healing properties of the Nopal cactus have been relied on for centuries by native peoples, and they're now combined with the healing properties of Aloe Vera. Creating one of the most powerful and useful wellness supplements on the planet. Just a dropper full under the tongue, twice a day, of this amazing liquid, is changing lives across the globe! Nopavera contains a very rare and powerful class of antioxidants called bioflavonoids.

These bioflavonoids have been scientifically proven to help the body detoxify itself and reduce inflammation. Inflammation and free radicals, which are simply molecules which can cause irreversible damage to cells, are often the result of the body's exposure to toxins, trauma, nutrient deficiencies or even stress. Any cells that are overwhelmed by inflammation may be damaged beyond repair, causing the cell to prematurely die. If these dead cells are not expelled from the body, they can become a point of infection, or other illnesses. The bioflavonoids in the nopal cactus may help protect against toxicity and reduce inflammation that often leads to serious conditions.

Take the **NOPAVERA** 90 Day Challenge...

We are confident you will see better results with **NOPAVERA** in the first 90 days, than that of any product you may have used for years.

Those who take the challenge, are rewarded with a FREE Product Offer! - See Our Website for Details
