

LUX WIRED

LED TASK LIGHT

Loft Collection

The LUX Wired LED Task Light combines the sustainability of LED technology with the convenience of an accessible, reliable power source. The LUX Wired features a sleek, understated disc head with integrated LEDs and a jointed, extendable arm. Its coordinating disc base contains an incorporated power outlet, enabling the LUX Wired to function as a versatile charging station. The perfect solution for hospitality, workspaces, and commercial interiors, the LUX Wired has both contemporary styling and essential utility.
