Velociti Inc./CSTK Ranks on the Kansas City Business Journal's List of Fastest Growing Companies

Riverside, Mo. – June 11, 2013 - Velociti Inc., a global provider of technology deployment services, and sister company CSTK, a diversified transportation solutions provider of products and services, has ranked in three categories of the *Kansas City Business Journal's* list of fastest-growing businesses in the Kansas City area. The rankings are based on an average annual revenue growth rate.

Velociti Inc./CSTK ranks 45 out of 50 for average rate of growth between 2010 and 2012, ranks 12 for rate of growth in 2012 and ranks six for fastest growing based on first year in Kansas City.

In 2012, Velociti was also ranked as one of the fastest growing companies by the Kansas City Business Journal, Inc. 500/5000 and the Flyover 50.

"We deeply appreciate the recognition we've received the last few years and are excited to see our momentum continue," said Deryk Powell, President of Velociti, inc. "Transportation technology continues to play a strong role in our success, however, we have seen tremendous growth in areas such as wireless and digital signage deployments the past few years, especially in the hospitality and retail markets."

"We attribute the growth to our ability to adapt to new market trends without diminishing our ability to deliver excellent quality service and support," said Michael Kahn, CEO of Velociti/CSTK.

Velociti recently relocated its operational headquarters to a new state-of-the-art facility in Riverside, MO. CSTK continues to maintain corporate headquarters in Overland Park, KS.

The complete list, which includes revenue, number of employees, business descriptions and contact information can be found in the June 7-13, 2013 print edition of the *Kansas City Business Journal*.
