

Kanguru Defender DualTrust™

Secure Virtual Workspace & Encrypted USB Storage

The **Kanguru Defender DualTrust** provides you with complete confidence to bank, invest, pay bills, make purchases and browse online in a safe, secure environment. If you are concerned about doing business on a PC that could have malware, viruses or spyware lurking on it, then this is the drive for you.

A Protected Environment to Browse and Store Your Most Important Files

The Defender DualTrust opens up a secure, protected browser session, isolated from vulnerabilities such as viruses, malware or spyware that could potentially "trace your steps" in an ordinary browser window. Simply plug in, set up a password and you are on your way to a secure browser that enables full secure online access. What's more, once you unplug the device, the Defender DualTrust leaves no trace of your session behind.

Designed for easy use, it offers top notch security features such as 256-bit AES hardware encryption and onboard AntiVirus*, alongside its core feature of secure online access. The Defender DualTrust enables you to surf and conduct online transactions in a secure and safe environment on any PC - anywhere!

Defender DualTrust is available in 8GB or 16GB convenient capacities, and with AntiVirus protection by BitDefender,* you can also be assured that any files you store are safe and secure under 256-bit AES hardware encrypted password protection.

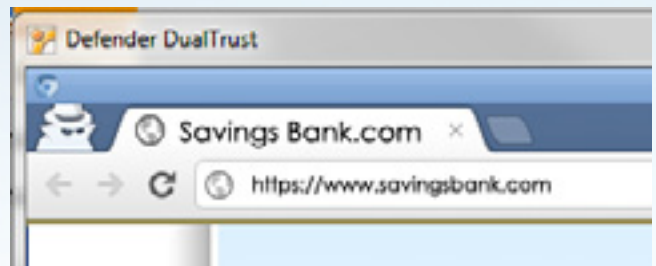

Kanguru Defender DualTrust™
