

About Atomic Training

Atomic Training provides on-demand software training and support tutorials to help organizations and individuals fulfill technology training and development goals. Whether you need to transition to updated software or train on a new application, Atomic Training has the essential training needed to develop and increase technology skills and proficiency.

Atomic Training offers over **45,000 online tutorials** covering more than 140 common software applications. All video tutorials are broken down in to 1-3 minute segments for quick software answers.

Training on over 140 common software applications:

Excel®	Flash®
PowerPoint®	Photoshop®
Word	Mac OS X®
Windows® 8	iPad®
Outlook®	Google™ Docs
SharePoint®	Internet Browsers
AutoCAD®	iTunes®
Acrobat®	... and more
