When you make a sale, VASS empowers your customer, your salesperson, your dealership & search-engines to share socially
Click. Share. Win.

When it comes to sharing, you need 5 components—customer, salesperson, dealership, search-engines & VASS. For every sale, 5 people/entities are sharing each of your VASS Customer Testimonial Pages with their friends and so on. Some quick math tells you, for each & every customer sold, 100's to 1,000's are instantly connected & educated about you. Many are motivated buyers & influenced to buy from you today. Google, Bing & Yahoo! will also recognize your dominance & relevance through your VASS pages. That means when new and used vehicles are searched for in your market, you show up more than anyone else. You win, AGAIN!

Getting your exclusive VASS license, first, means your competitors cannot get it
