

AquaSmart™ Top Loading Washer

Product Specifications

Model no.	WL4227P1
SKU no.	96207
UPC no.	822843962075
Finish	White
Capacity	22lb
Dimensions	
Height	42-43in
Height (lid open)	57in
Width	27in
Depth	28in

KEY SELLING POINTS

FEATURES

SmartDrive™ Technology

A set of mechanical and electronic parts including a Direct Drive Motor, Floating Bowl and Motor Controller, form a mechanically simple washer that can sense and respond to each and every clothes load. Providing better clothes care and reliability with no belts, pulleys, gearboxes, clutches or brakes.

SmartTouch™ Control Dial

The SmartTouch™ control dial is the interface to the SmartDrive™ technology, delivering an expert wash every time through 12 pre-programmed cycles: Towels, Regular, Heavy, Delicate, Sheets, Easy Iron, Bulky, Allergy, Whites, Basket Clean, Rinse and Spin. The options, Soak, Bleach, Softener, Quick and Wash Boost, allow you take control when you want.

Soft Close Glass Lid

The soft close glass lid consists of extremely strong toughened glass, set in an ABS molded base for extra strength. Fisher & Paykel believe this is the toughest lid on the market, delivering uncompromising quality and durability. Opening and closing is counterbalanced to deliver better ergonomics and hands free operation.

Eco-Active™ wash

Eco-Active™ wash boosts soil removal while saving energy. Its unique pumping technology re-circulates water and detergent through the clothes in a cascade like pattern. This rapidly removes stains and dirt and is proven to be more effective at killing bacteria.

Quiet Operation

Designed for quietness with pressed forms on the cabinet, polypropylene insulating base and sound deadening pads. Less than 50dBA sound during the wash and 64dBA when spinning at 1100rpm, allowing you to wash day or night without disturbing those around you.

1100 RPM Spin

With a maximum spin speed of 1100 RPM spin, a substantial 386 g-force, these washers remove more water from your clothes so they take far less time to dry.

Eco-friendly

The AquaSmart™ washer has excellent water and energy saving credentials qualifying for Energy Star and Tier 3 of the CEE Super Efficient Home Appliance Initiative.

SmartDrive™ Technology

FEATURES

A set of mechanical and electronic parts including a Direct Drive Motor, Floating Bowl and Motor Controller, form a mechanically simple washer that can sense and respond to each and every clothes load. Providing better clothes care and reliability with no belts, pulleys, gearboxes, clutches or brakes.

SmartTouch™ Control Dial

The SmartTouch™ control dial is the interface to the SmartDrive™ technology, delivering an expert wash every time through eight pre-programmed cycles: Regular, Heavy, Delicate, Sheets, Easy Iron, Bulky, Basket Clean, and Rinse & Spin.

Soft Close Steel Lid

The soft close steel lid is made of powder-coated steel that won't chip and is resistant to chemical corrosion. Fisher & Paykel believe this is one of the toughest lid on the market, delivering uncompromising quality and durability. Opening and closing is counterbalanced to deliver better ergonomics and hands free operation.

Quiet Operation

Designed for quietness with pressed forms on the cabinet, polypropylene insulating base and sound deadening pads. Less than 50dBA sound during the wash and 64dBA when spinning at 1100rpm, allowing you to wash day or night without disturbing those around you.

KEY SELLING POINTS

FEATURES

The Perfect Pair

The AeroCare dryer is AquaSmart's™ perfect match – functionally, ergonomically and visually. It is designed to sit identically alongside the AquaSmart™ washer, offering a sense of design and organisation to your laundry.

SmartTouch™ Control Dial

Delivering the ultimate laundry experience using a quality stainless steel dial that is both robust and precise, the SmartTouch™ control dial requires just fingertip control. As you turn it the icons illuminate to show you exactly what you have selected. All printing is molded into the fascia so it will never wear off.

Multiple Pre-Programmed Dry Cycles

AeroCare has a range of cycles including Regular, Heavy, Delicate, Energy Saver, Easy Iron, Bulky, Allergy, Time Dry, Rack Dry, Air Dry, AeroSteam and AeroSteam Plus. Options including Wrinkle Free and Damp Dry signal deliver additional clothes care benefits.

Large Capacity

With a huge 7 cu ft capacity, this dryer has the room to dry huge loads without wrinkling.

Reverse Tumbling

Clothes tumble clockwise then counter clockwise, to prevent items tangling and roping. This ensures even drying, prevents hot and damp spots and results in less wrinkling.

Dryness Sensing

Four heat settings and four drying temperatures ensure optimum clothes care. The heat is turned down as the load becomes dry preventing shrinkage and damage. The dryer automatically turns off when it senses the right level of dryness has been reached.

Steam Cycles

Two refreshing steam cycles de-wrinkle and freshen garments without excessive power use. Perfect when you want to remove unpleasant smells from garments but you don't want to wash them, or you want to freshen them after prolonged storage.

Durable Work Surface

The work surface is made of toughened glass on top of an injected molded base, making it our most chemical resistant lid.

Easy Loading

Large door opening and powerful interior light makes loading and unloading easy. The door has been designed to be reversible to suit the laundry space.
