

A Dream is Only A Dream Until You Make It A Reality, BeCreation.

Los Angeles creative collective BeCreation, LLC is proud to announce the soft launch of their new website and 4 new artists/projects: "Quiet As Kept", The Delirians, Soul Nana and Mortasay.

<http://www.becreation.com>, has launched expanding its production and design services, to include consulting and personal training. Founded in 1998, BeCreation, LLC works within the entertainment and small business arenas, providing branding, social media marketing, web design, print design, and video production.

Even with sites such as Lynda.com, Youtube and Teamtreehouse.com providing tools to help even the novice navigate through this world wide web, there is still a need for personal instruction and overall guidance. If you don't have time to wade through it all then we suggest one on one counseling. BeCreation, LLC is offering their years of experience and knowledge to, not only their clients, but to the general public.

Independent feature film "Quiet As Kept" is in the final stages of releasing their buzz trailer and indiegogo campaign. The cast members Jensen Atwood from Noah's Arc and Janora McDuffie from Grey's Anatomy, Maya Washington and Freckles "The Writer" are excited about the release and would love your support. It's a film about family, the secrets that break us and the love that makes us whole. If you've seen Tyler Perry's "The Haves and the Havenots", "Love Thy Neighbor", "Temptation" or "For Better or Worse" then "Quiet As Kept" is a-must see.

Make a mash up of James Brown and Bob Marley then add a young Latin band to the mix. You'd have The Delirians. Under the management of Philip "Fish" Fisher (Fishbone) and Enterwerks Entertainment Group these young men are preparing to release their next album. BeCreation is preparing to launch their new website.

Representing Ghana and Cali, Hip Hop Artist/Producer Soul Nana is stepping out as a solo artist with releases like "Dedicated" from his upcoming album Planet Afrika. Soul Nana, the son of Rim Kwaku Obeng, a famous West African drummer who played for Fela Kuti, is no stranger to his African heritage. Nor is he unfamiliar with the trials & tribulations of his African American upbringing. With tribute tracks such as "Nigga Phobia" inspired by the story of Trayvon Martin causing quite a stir in the blogosphere. As a producer Soul Nana most recently produced a track with BET AWARDS 2013 Nominated Mugeez of R2Bees, featuring both Bishop Lamont and Nikki Grier.

The band Mortasay is in the studio working on their premiere album, which is being made in conjunction with their feature film project. This project is near and dear to our hearts, which will be revealed later. We've been excited to be apart of it since it's inception.

"BeCreation has had the opportunity to work with outstanding organizations such as NBC to radio personalities the likes of Shirley Strawberry and startup business owners

like Sandy Dailey of Sandi's Cobbler Cups," said Vonyse Reeder founder of BeCreation, LLC. "It is always a privilege to build an idea from the ground up. In 2013 we look forward to exploring new territories and developing new ways to give our customers the attention they need and the quality they deserve."
