A Perfect Way to Learn

Epic Live is a new, highly engaging and interactive, Web-based learning series that gives you access to the best technical information and certification training anywhere, anytime. Our scheduled, live courses are taught by the most knowledgeable, real-world and battle-tested, instructors on earth. Each class is packed with the latest in Hollywood movie technology – filled with live video, multimedia presentations, interactive discussions, and guest “field” experts. Epic Live is a massively engaging, next-generation web training experience with live instructors where you can practice on real equipment. Our next-generation web training allows you to practice on real equipment, providing an interactive experience to help you learn and apply the concepts to your job immediately – all at half the price of normal classroom training.

Epic Live Features

- The best certified instructors and IT experts on earth
- Hollywood technologies that create a personal interaction through a mind-blowing, rich media experience
- Battle-tested IT gurus will show you all their tips, tricks and shortcuts
- Engaging “live” hands-on labs and virtual sims to ensure learning
- Anytime, anywhere accessibility with TiVo-like “Instant Replay”

Effectively **Maximize** Your **Budget**

TiVo-Like “Instant Replay”

If you miss a live class or want to review a section of class – no problem! With our exclusive Instant Replay, you can access every live course via our TiVo-like solution. All topics, guest speakers, tips and hands-on labs are at your fingertips. You won't miss a beat.

Hands-On “Live” Labs

When it's time to put into practice what you learned, there is nothing like working on the real software and equipment. Just like classroom training, you'll practice on real gear so you will know exactly how to execute when you hit your job. We have dozens of labs in most courses covering both the certification test topics and the real world application.

Elite Experts and Instructors

Ready to learn from literally the best in the world? Instead of having just one or even two classroom instructors in a course, we've created the ideal way to learn by filling every class with best-of-the-best instructors. These trainers literally write the books on Microsoft, Cisco and PMP. Then, we bring in proven IT experts to teach you the real world application and secrets of each topic.

Flexible Scheduling

Typical IT training classes are taught eight hours a day, five days in a row – making it impossible to do your daily job. Not with Epic Live! Our classes are offered in bite-sized two-hour sessions held over eight days. We cut out all the wasted time in classroom learning and leverage multimedia messaging allowing you to grasp concepts more efficiently and retain what you've learned. This allows you tremendous flexibility in doing both your regular work and in learning new technologies.
