

The latest and most up to date product from Forex trader and instructor Bill Poulos, Forex Income Engine 3.0, promises to predict the ability to predict the trends of the next two bars with 72.2% accuracy. This has caught the attention of <http://ForexIncomeEngineReview.org> 's Stan Stevenson, prompting an investigative review.

“Forex Income Engine 3.0 is all about learning the key to knowing how to manage risk first above all else. According to Bill, once you learn this crucial skill, the rest will all fall into place,” reports Stevenson. “This trading program is not only for the novice trader, it is designed for the young or old, male or female, rich or poor, experienced or a complete rookie. With over four decades of trading experience, Bill Poulos’ crucial knowledge is what makes his products such a boon for anyone who uses them.”

The Forex Income Engine 3.0 review shows the upgraded program includes 8 group coaching sessions, The Custom Trade Alert Software, Lifetime Access to the Member’s Website, the place where users get free updates to any of the course materials, as well as plenty of bonus training, and 1 Year of premium email support from Bill’s dedicated Forex trading team. The group coaching sessions is where people will learn exactly how to use the trading software to the utmost. The sessions are done online and are an invaluable way for them to discover how to use and get the very best results from their Forex trading.

“Once The Custom Trade Alert Software is set up, all you have to do is wait for trade alerts to appear. It will provide you with specific entry and exit orders, and you also have the ability for these alerts to be sent to your email or cell phone for when you’re away from your computer,” says Stevenson. “1 Year of premium email support gives you the ability to ask any questions on trading and training. If you seem to be spending far too much time at your computer screen staring at charts and trying to work out when to enter and exit a trade, then the Tradelite software will do away with virtually all of that.”

“Our Forex Income Engine review of version 3.0 found it really is the best product Mr. Poulos has offered to date. If you trade Forex or are thinking about trading), this is possibly one of the best products in the market today. This trading program gives you the insight you need into making those all important decisions, while still allowing you the freedom to have complete control over what you trade. If you've been trading Forex for a while but never seem to get the gains that you know you deserve, then this could be exactly what you need to see your fortunes change.”
