

## Incredibly Timely, Strategic Data You Need to Deliver Top Talent and Advice for Your Clients

Leopard Firmscape shines a spotlight on over 200 top law firms, letting you understand their strengths, weaknesses, financial health and attorney make up. Explore by firm, practice area, location or firm size.

With a click of a button, Firmscape instantly delivers a snapshot of the firm of interest, including a description, attorney make up, practice areas, compensation, firm financials, laterals, administration and more.

We mine The Leopard List, where we watch firms for changes and movement, along with other data sources to bring you a comprehensive view of the firm.

Plus you can drill down for complete details. For instance, view associate details, including their starting salary, practice area, specialties, title and memberships.

### Use Leopard Firmscape to:

- Identify the best firms to recruit talent on behalf of your clients. Search talent by practice area, specialty, school or region.
- See lateral moves into and out of competing firms, and identify candidates who may be interested in

moving to a new firm.

- Assess associate starting compensation, and advise your client on structuring competitive offers.

## Far Reaching Reports That Deliver Current and Historical Views of The Top Firms

In the legal industry, knowledge is power. Leopard Reports provide a broad overview of the market, now more than ever before. Leopard Solutions has added over 1500 additional firms into Firmscape, allowing users to search by the Top 100, Top 200 and all firms.

While the Top 200 firms receive special attention (their reports include their salary, financial data, profits per partner and more) users can now search and run reports on over 1700 firms. It truly displays the legal 'firmscape' across the country.

### Current Reports

These reports combine to deliver a current 'snapshot' of a firm, with an overview of practice areas, specialties and law schools within the top 200 firms. Drill down for complete details on potential candidates.

### History Reports

Get historical looks into specific law firms, as well as the entire landscape for the top 200 firms. Which practice areas grew with the firm of interest? Which grew overall? How many laterals were hired each quarter? These reports answer questions about important trends, as well as let you drill down to the individual attorneys who make up these historical views.

### Lateral Reports

We dig into laterals by type, by JD year, practice areas and much more. Our data begins in 2008, so you can answer such questions as: Who moved laterally to Akin Gump between 2008 and 2009? We can tell you. How many labor and employment laterals were hired? Got it. This is the most comprehensive data on laterals than you can find anywhere.

### Promotions Report

Which firm promoted the most to partner, counsel, and when? Drill down to see the individual attorneys who were promoted with our Attorney Promotions Report.

### Keyword Searches

Our Membership and Corporation fields in the attorney record are now searchable. What attorneys represented American Express? Who represented Citibank, JP Morgan? You can now keyword search the Corporation & Membership columns in the attorney record. Would you like to see who is a member of the Hispanic Bar? Chamber of Commerce? All of those items are searchable within Leopard Firmscape.
