

MPATrack

Use the MPATrack GeoTagging app to track everything - devices, people, videos, people pictures, traffic tickets, witness statements, emails and more.

MPATrack is our enterprise tagging, tracking, and location reporting solution. It GeoTags all captured data and transactions and lets you track and control BlackBerry™ -equipped individuals or groups. Device data can be sent to Intergraph I/Tracker, or other CAD and mapping solutions. Secure visual mapping and tracking for more knowledge, better planning, and maximum situational awareness when total visibility is required.

Leaders, teams and team members gain situational awareness as well as 100% accurate time and place recording with this enterprise tracking and GeoTagging app. Adaptable to any type of group or field operation, MPATrack features large clear maps and images.

- **Secure, encrypted, mobile tracking and tagging**
- **Adjustable frequency - position fixes or reports every 6 seconds to 60 minutes.**
- **Watch a Platoon or Division, include or exclude specific members as required.**
- **Search and report using customizable tags.**
- **Full color maps and assigned colored map pins for users.**
- **Global coverage; works anywhere in the world.**
