

CUSTOMS BROKERAGE | INTERNATIONAL TRANSPORTATION | WAREHOUSING AND DISTRIBUTION | CONSULTING

Air Freight Services

A single point of contact: Customs brokerage and freight forwarding that ensures the seamless movement of your freight.

A.N. Deringer, Inc. has been facilitating the movement of goods throughout the world since 1919. With established air freight services from strategic points in Asia, Europe, and Brazil to all points within the United States and Canada, Deringer assists companies of all sizes, in all industries with personalized service. Although many freight forwarders can offer the same rate for the same move, Deringer couples competitive rates with boutique customer service based on our customers' requirements.

Key Services Include:

- International freight forwarding of imports and exports
- Reliable and flexible transit schedules
- Fast and dependable door pick up/delivery services
- Shipment consolidation and deconsolidation
- Warehouse and distribution centers located throughout the US and overseas
- Preparation of all required documentation
- Customs clearance
- Cargo insurance

A Complete Third Party Logistics provider (3PL)

Deringer identifies the most efficient, least congested ports to ensure timely delivery of freight. Access to a proven network of global agents helps to lower landed cost and ensure local knowledge. Our international network is comprised of leading logistics providers in their respective countries. Deringer's industry-leading expertise with security standards and Customs regulations supports delivery that is consistent and reliable. Our flexible schedule and long-standing relationships with dependable agents around the world allow us to offer competitive rates and best-in-class customer service. By choosing a single logistics partner, Deringer's customers benefit from the streamlined movement of freight and the minimization of costs associated with storage and document transfer fees.

A.N. Deringer, Inc. is an Indirect Air Carrier (IAC), licensed Freight Forwarder*, Federal Maritime Commission (FMC) licensed Ocean Transportation Intermediary OTI and Non-Vessel Operating Common Carrier (NVOCC, as well as a certified International Air Transport Association (IATA) licensed cargo agent for major airlines *The following offices hold NVOCC and freight forwarder bonds: Alexandria Bay, Atlanta, Blaine, Boston, Buffalo, Champlain, Chicago, Cincinnati, Detroit, Hartford, Highgate, Houston, Los Angeles, New York, and Seattle.

Internet Tracking and Tracing Capabilities

Deringer customers have 24/7 access to a variety of shipment tracking data and related shipping documents including entry type, dates, delivery, commercial invoices, master or house bill numbers, duty forecasts, statement recap, tariff use, transit time, and more. Our collaborative purchase order and supply chain management system positions us to deliver visibility and confidence, as we facilitate the electronic exchange of data on our client's behalf to all partners in their supply chain. Our capabilities include the ability to receive electronic purchase orders (POs) from customers via EDI, MS-Excel, or flat file formats, as well as the ability to manage POs between buyer and seller, exporter and importer.
