

## Relationship Rewind: Review Examining Ryan Rivers' Unconventional System Released

SUMMARY: *ConquerHisHeart.com releases a review of The Relationship Rewind System a newly launched relationship recovery program which promises to function as a "relationship time machine" to take heartbroken lovers back to the honeymoon stage of their relationships.*

"Ryan Rivers' Relationship Rewind System is creating a buzz of excitement in the dating and relationship advice community," reports ConquerHisHeart.com's Sean Roman. "The methods taught in this program are pretty much a complete 180 from what is typical taught by relationship experts in generic 'get your ex back' courses, and many people are wondering if this is the thing that will finally be able to help them to get back together with their exes. We decided we wanted to review the course in order to determine whether this system is really all that different, and provide our opinion on it for our website visitors."

Roman's Relationship Rewind review reveals that there are separate versions of the course for men and women, but having reviewed both versions he asserts that they are both based on the same basic psychological principles.

"Because our website focuses on women's dating issues we focused much of our review on the women's version of the course," says Roman. "However, because there is also a men's version, we wanted to take a look at that as well to provide our male readers with the facts they need to know. Really, whether you are male or female, the emotions of pain, loss, and grief that you feel after a break up are the same. They are human emotions, and anyone who has ever been dumped knows how horrible it can feel."

Relationship Rewind intends to provide users with a system to rewind their relationship back to what River's refers to as the "bliss" or honeymoon stage of a relationship where both parties were filled with love for one another and excitement about the future.

"One thing that really impressed us about Relationship Rewind is that it's really more of a relationship management tool than it is simply a way to get your ex back," says Roman. "After all, what's the point in getting your ex girlfriend or boyfriend back if they are just going to break up with you again next month? As discussed in our review, Rivers has developed a tool that can be used over and over again to keep a relationship healthy, and passionate forever."
