

## **Geranium Street Floral Shoots Artificial Hedge Panel Commercial**

*Artificial hedge provides excellent foliage for Geranium Street Floral video shoot.*

La Jolla, CA ([PRWEB](#)) July 03, 2013 -- Last week, the Geranium Street team went on location to the scenic and charming La Jolla Shores and created a gorgeous scene using two company [artificial hedge](#) panels. The team spent the morning filming the latest commercial, which shows how exquisite the hedge panels look on location.

Geranium Street Floral's artificial hedge panel is available for order in three standard sizes: 4x6x1, 4x5x1 and 4x4x1. Customers can also order customized hedge panels, built to dimension.

Another great decorative option is to display the panel in the black, [fiber glass planter, available for purchase from our cart](#). Otherwise, your hedge panel will come already paired with a complimentary wooden planter.

Geranium Street's hedge panel is one of the more popular products due to the fact that it's ideal for outdoor events of any kind, weddings, parties—or to add decorative flair and vibrancy to a backyard.

The product itself is UV-rated, and it will not fade from prolonged exposure to weather or sun.

Watch the Geranium Street Floral Artificial Hedge commercial to see how the hedge panel looks on display.
