

MOBILE FORMS MADE EASY

Datafield the mobile forms and surveys solution, welcomes Dr. Gandhi to its board.

Washington, D.C, August 9th, 2013. Datafield the [onsite data collection solution](#) is glad to welcome Dr. Valentine Joseph Gandhi as a non-executive board member.

Following strong demands from emerging markets in Africa, Asia and South America, Datafield has reinforced its board of Directors by welcoming Dr. Valentine Joseph Gandhi as a non-executive board member.

Antoine Déroche, CEO and Co-founder of Datafield, expresses his enthusiasm: "We are thrilled to have Dr. Gandhi joining us in promoting Datafield and supporting our growth in developing markets".

Dr. Gandhi will bring to Datafield is tremendous experience about data collection in emerging and developing markets. Dr Valentine Joseph Gandhi is a Social and Implementation Scientist. He is currently with the International Water Management Institute (IWMI) of the Consultative Group on International Agricultural Research (CGIAR) Consortium based in Addis Aababa, Ethiopia. He is also the founder of The Development CAFÉ a Nairobi based think tank that works on building capacity through use of ICT Tools, Research and Advocacy for NGOs, Governments and other stakeholders.

Dr Gandhi specializes in applying research into practice and policy, Impact Evaluation, ICT tools for Research and Knowledge Management and Organizational Capacity Building. Prior to this he was with the USAID Project on Implementation Science Investment in Zambia and earlier with UNDP ATMS Project in Kenya. He has been in Africa for the last 5 years. He is a citizen of India and before moving to Africa he has worked with several national and international organizations and governments around the world. His area of expertise will help Datafield provides the best possible services for developing countries in bridging the technology divide.

Dr. Gandhi shares his view : "I am glad to be part of the Datafield Board, effective use of ICT tools helps us reach our goals in research and development more effectively as well as efficiently. Data is power and I am glad to see Datafield is engaging with innovative ways to empower people through its simple and easy to use data tool, I am happy to be a part of your vision"

About Datafield

Datafield (www.data-field.com) is a mobile form solution with the ambition to help enterprises go paperless in the field. Datafield is made of a web based dashboard to create and publish forms and a mobile application on iOS and Android to perform those forms onsite and offline.

Datafield mobile Application is trusted daily by thousands of companies using Datafield to perform mobile surveys, collect customer feedback, perform retail audit or conduct onsite inspection.
