*Tucson golf resort welcomes bird watchers for one of the biggest months of the year*

**Green Valley, AZ** – Every bird needs a nest, and the [Wyndham Canoa Ranch Resort](#) seeks to provide bird watchers and other vacationers with a nest of their own in the Arizona desert.

August is one of the best months for birding in Arizona, and the city of Tucson celebrates with the annual [Tucson Bird & Wildlife Festival](#) scheduled for Aug. 14-18. The event invites birders and

wildlife enthusiasts from all over the world to come to the area. Due to longer daylight hours during the summer months, birders flock to the state to see many different species of birds, including Hummingbirds and Sparrows, nesting and interacting within their family groups. Many of the birds' eggs will be hatching, so birders will be able to witness the start of a new generation.

Each year, enthusiasts flock to Southeastern Arizona, a popular bird watching location due to the diversity

of species the area attracts. Migrations of birds such as the Rufous Hummingbird, Flycatchers, Warblers, Tanagers and Orioles reach their pinnacle during the late summer rainy season, making August an ideal month for Arizona birding.
