### Google Mail

Gmail is a powerful email service that also includes, IM, voice and video chat. Each user gets 25GB of storage, powerful spam filtering, BlackBerry and Outlook interoperability, with a full 99.9% up-time SLA. The web securely powers Gmail, so users can be productive from the desk, on the road, at home and on mobile devices - even when you're offline.

 *Vale First and Middle School Gone Google with 1000 students and staff*

### Mobile 1st

We are in a new era, an age of augmented humanity. The smart phone is the iconic device of the 21st century. If a mobile is not connected to the Internet it is just a device and cannot get the latest information. This change has been subtle over the past 5 years, but now we can build cloud applications that quite simply "just work".

 *Wrekin College Gone Google with 500 Students and Staff*

### Google Docs

Web-based documents, spread sheets, drawings and presentations that allow users to edit the same file in real time so users always have the latest version. Google Docs is built for online collaboration. Users can work from any location on the same document, edit in real time and view document revision history and roll back to any version, which are automatically saved.

 *University of Westminster Gone Google with 10,000 + Students and Staff*

### Google Calendar

Google Calendar is a powerful calendar application that comes with Google Apps for business.

With Google Calendar you can overlay multiple calendars within a business to see when people are available without having to contact each individual. Google Calendar sends invitations and manages RSVPs. It can be easily integrated into your office system and can be accessed from a mobile device.

### Google Cloud Connect

Google Cloud Connect for Microsoft Office brings collaborative multi-person editing to familiar Microsoft® Office files. You can share, backup and simultaneously edit Microsoft Word, PowerPoint® and Excel® documents with co-workers.

Teach your old doc new tricks!

### Google Drive

Google Drive allows users to store, share, and collaborate on any document from any location around the globe, regardless of industry or network.

Introducing the all-new Google Drive. Now access your files, even the big ones, from wherever you are. Share them with whomever you want, and edit them together in real time.

## AppsCare® – Google Enterprise Premier Partner

**www.appscare.com**  
**+44 (0)8703 510018**

AppsCare® is a Google Enterprise Premier Partner and is proud to be recognised as a world leader in the deployment and support of Google Enterprise services for more than 2500 customers in over 30 countries.

Our AppsCare teams have expertise in all fields spanning sales, technical, project and change management and are Google accredited to the highest levels. Our engineers were the first outside of Mountain View to achieve both Google Apps Certified Deployment Specialist (GACDS) and Cisco IronPort Certified Security Specialist (CICSS) accreditations, providing AppsCare with unrivalled knowledge in our customer care teams.

### AppsCare for Education

Google Apps for Education is a global movement and migration of the education industry to the Google Apps Suite, involving a powerful collaboration with Google Drive, Calendars, Groups and Sites.

Currently, more than 16 million staff and students have migrated to Google Apps for Education. The offering is extremely compelling and is changing the way institutions are working for both staff and students alike.

AppsCare have led educational deployments for some of the world's most prestigious institutions. The parent organisation to five of the most prestigious educational institutions, British School of Kuwait has chosen AppsCare, [Google Enterprise Premier Partner](#) to deliver Google Apps for Education to its 12,000 education users across the country. AppsCare's team of Google certified engineers and change management department have a proven track record of both overseas deployment and experience with a wide range of educational establishments.

AppsCare are proud sponsors of the Google Apps European Education Summit in Prague, October 2012.

Sincerely,  
Michael Carter
