**PRESS RELEASE**

**Moorepay are awarded the Payroll Assurance Scheme (PAS) accreditation following assessment by the CIPP**

On 8th August 2013, Moorepay were awarded the Payroll Assurance Scheme (PAS) accreditation by the Chartered Institute of Payroll Professionals (CIPP).

The PAS accreditation independently reviews all payroll processes involved in paying an employee. Thus, to receive an accreditation of this stature reassures UK businesses that Moorepay's industry leading payroll services and solutions follow legislative best practice.

What's most pleasing is the news that the CIPP were most impressed by Moorepay's robust payroll procedure. The CIPP assessor visited Moorepay at their Fleet office and reviewed their processes, ensuring they are fit for purpose and comply with current government legislation, as well as their readiness for forthcoming changes. Chris Budd, Operations Director at Moorepay added, "*While we take great pride in our people, processes and standards, it's always nice to receive industry recognition from a professional member's organisation such as the CIPP. However, we will constantly challenge ourselves to further improve our high-standards and the payroll services we provide to SME businesses*"

The CIPP Payroll Assurance Scheme was developed to provide payroll departments and bureaus with assurance that;

- Their payroll and associated processes are fit for purpose and comply with government legislation
- They have the right payroll activities in place
- They have suitable processes in place for picking up and preparing for legislative changes.

This accreditation is a further step towards establishing Moorepay as a leading provider of payroll services within the UK, with Chris concluding "*We are absolutely delighted to become one of the first payroll outsourcing providers to become accredited by the Chartered Institute of Payroll Professionals (CIPP) under the Payroll Assurance Scheme*"
