

September 18-19, 2013
Montreal, Canada

2 information-packed days of live demos, hands-on workshops, and expert advice. All under one roof.

Get a crash course in enterprise software selection at the TEC Vendor Challenge - ERP Distribution.

Join TEC and partners Aberdeen Group, Pemeco Consulting, and SupplyChainBrain for two days of software demos, workshops, panel discussions, and live Q&As.

You'll learn how to navigate the selection and implementation process from start to finish, and get the chance to meet face to face with leading analysts, industry experts, software vendors, and VARs.

- Attend interactive workshops covering software assessment, selection, and implementation
- See up to 5 vendor demonstrations focused on the needs of distributors and manufacturers
- Create a custom short list with help from our on-site consultants
- Connect with leading analysts, and industry experts
- Take home templates, reports, buyer's guides, and other software selection resources

The TEC Vendor Challenge for ERP Distribution is a one-of-a-kind opportunity to learn from the pros. You'll get more done in two days than you could in weeks of independent research! Don't miss it.

Register today.
