

Jump into Mobile & Push Notifications!

Connect like never before with Subscribit...

Through the FREE Subscribit Communication App customers subscribe privately to receive mobile notifications from business they love, and from www.subscribit.com, businesses create and send offers, reminders and alerts to engage and reward loyal subscribers.

It's private, unfiltered real-time connections.

Your customers are already mobile...
Jump into Subscribit to connect with them.

Download the app

What's a push notification?

They're like Text/SMS Messages... they're mobile pop-up alerts but delivered via an App instead of cellular, so they're way more cost effective and customers don't provide a cell number to subscribe... removing hesitation and helping business build larger subscription bases.

On average, it takes 90 minutes to respond to an email... but only 90 seconds to respond to a mobile message. (CTIA)

How can I use push notifications?

- ▶ Run an instant / limited time offer
- ▶ Drive last minute event traffic
- ▶ Push daily reservations
- ▶ Give loyal customers limited quantity alerts
- ▶ Promote upcoming sales
- ▶ Deliver important messaging/announcements...

Jump into Subscribit and real-time notifications, and let your customers subscribe without an email or cell number.

Are you an organization with members, locations, agents or exhibitors?

Designed for...

- ❑ Associations, Chamber, Tourism...
- ❑ Tradeshows & Event Centers
- ❑ Shopping Centers & Malls
- ❑ Brands, Suppliers, Corporate Offices...
- ❑ Agent or Dealer Networks
- ❑ Colleges / Universities

Take your entire *Group* mobile

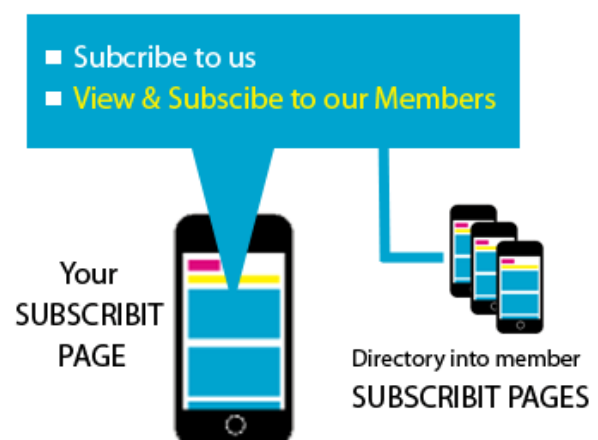

In addition to the real-time communication value that Subscribit delivers for you to your members...

Subscribit enables organizations to create and promote connections to an in-app sub-directory of their members, locations, exhibitors or agents.

- ✓ Lead your organization or event into mobile
- ✓ Increase community, industry and/or attendee engagement with you and your members
- ✓ Benefit from cross-promotion

Here's how it works...

- ▶ Add in your member list to Subscribit
- ▶ A FREE Subscribit Account is created for each member
- ▶ A sub-directory button is placed on your Subscribit Page
- ▶ App users can subscribe to you and also click through to browse a sub-directory of your "Members" and subscribe to them as well.

A simple way into mobile marketing.
