

For Immediate Release:

**August 22, 2013**

Do you know what [Amway](#), [Herbalife](#), and [Nu Skin](#) all have in common? Beyond the fact that they are brand name *network marketing* companies, the staggering trait they share is approximately 90% or more of their members fail in their efforts to make money.

According to network marketing [home business review sites](#), these as well as many other MLMs have a staggering failure rate with members.

Why do these members fail at such a high rate? The #1 reason is sales failure.

THE SOLUTION: [TeamVinh.com International](#), also known as “**V**”, is a professional advertising and marketing company that serves individuals in and outside of the Network Marketing Industry. V offers an innovative solution to the failure rate that afflicts most network marketing companies and individuals.

EMPHASIS: TeamVinh.com International is **not** a multi-level marketing company. V is a professional marketing company which builds the qualified third party MLM company for its members - worldwide.

TeamVinh.com International understands that the failures in a traditional MLM structure are a direct result of a member’s failure to master sales and to do it consistently. As the Founder of TeamVinh.com International, Vinh H. Le explains, *“In my Networking Marketing experience and journey, I discovered the statistical fact that over 99% of the people fail in MLM simply because people cannot sell, do not want to sell, and/or are unavailable to sell.”* So Vinh created “**V**” to be the most viable solution to this staggering failure rate.

Unlike traditional ways of MLMs, TeamVinh International takes the burden of generating leads and the dreadful selling aspects away from their members by offering something no other company in the industry offers, its proprietary “VPAK”. In the past, individuals with home-based MLM businesses were forced to generate their own leads and create their own sales. Further, they are often forced to spend a lot of money and efforts and have to leave their homes for “prospect meetings”.

As one of the fastest growing advertising and marketing companies in the world, TeamVinh International comprehensively sells for members, offering a true turnkey solution to one of

the MLM Industry's biggest problems. This solution includes every aspect of the sales cycle, including lead generation; follow up, new account registration, payment setup, member concierge services and support, as well as retention.

### **About Team Vinh**

TeamVinh.com International's Chairman, Vinh H. Le has been actively involved in running business enterprises since 1997 and involved in network marketing since 1998. After discovering a much more effective approach to marketing that is totally civic, Vinh founded TeamVinh.com International "V" in 2009. TeamVinh International believes that with every great solution comes massive opportunity. This opportunity has expanded and gone beyond the traditional limitations of market structures to ensure that "V" members have an opportunity for amazing and sustained growth.
