

## POWERFUL SOLUTIONS FOR YOUR RAPID PROTOTYPING NEEDS

AW3D printers are fast, precise, and dependable. They are simply the best 3D printers in this price range. Each assembled machine is leveled, fully calibrated and operated for 10-15 hours before shipping out.

*Each machine must make a perfect set of plastic parts for the next machine before packaging.*

---

<b>AW3D XL fully assembled and calibrated</b>	\$2,295
<b>AW3D V 5.5 fully assembled and calibrated</b>	\$1,695
<b>KIT BUILD IT YOURSELF AW3D XL</b>	\$1,895
<b>KIT BUILD IT YOURSELF AW3D V 5.5</b>	\$1,295

Our 3D printers and kit packages include everything you need to get started. Borosilicate glass plate covered with PET tape. user guide (paper bound), 1 pound spool of ABS filament (3mm), flash drive with all necessary software and USB cord.

We offer the following accessories & upgrades:

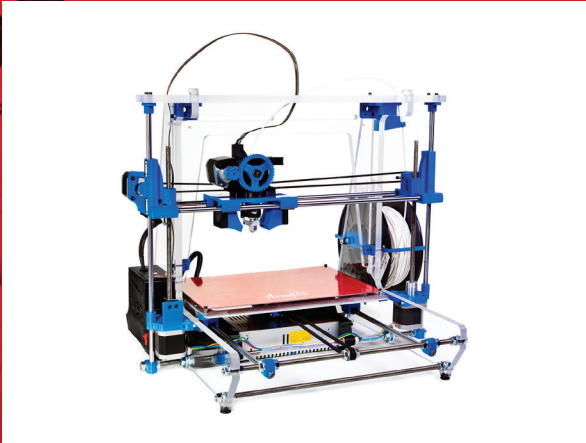

Borosilicate 3D Printer Glass Plate for XL	\$50
Borosilicate 3D Printer Glass Plate for V 5.5	\$25
0.35 Nozzle for higher resolution	\$30
8x9 Sheets of replacent PET film	\$30
1 additional pound of ABS filament	\$20
Dual Fan for optimized PLA printing	\$40

## AW3D XL

\$2,295

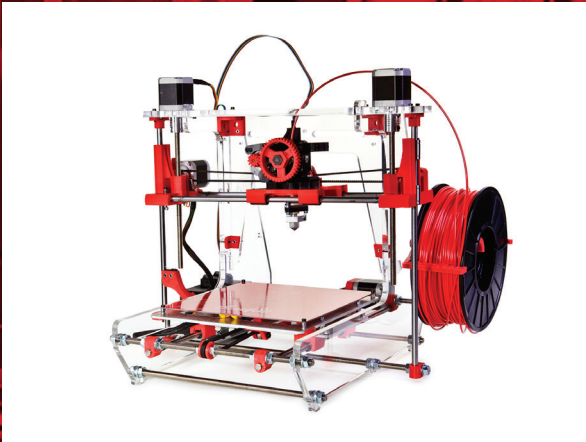

**12"x 8"x 7" Build Envelope**

Frame: 1/2" Acrylic

Temp Controlled Heated Bed

RAMBo Circuit Board

## AW3D V.5.5

\$1,695

**8"x 8"x 4" Build Envelope**

Frame: 3/8" Acrylic

Fixed Temp Heated Bed

Gen 6 Circuit Board

### PERFORMANCE

Based on an open rigid frame, our 3D printer design allows for production of rapid prototypes which are made fast and precise on an easily accessible glass print bed.

### SOFTWARE SOLUTIONS

3D print any STL file. Optimized to use powerful open source software such as Slic3r, Pronterface, Repetier Host and others.

### CUSTOMER SUPPORT

Backed by excellent customer assistance, we offer e-mail and telephone support. Average response time is 2 hours. We offer a warranty of 6 months on parts. Returns are accepted within 14 days, no questions asked.

We are here to help. Contact us to discuss your rapid prototyping needs.

### SUPPORTED MATERIALS

ABS, PLA, LAYWOOD, HIPS, PVA  
NYLON, FLEXIBLE PLA, LAYBRICK

Southern California based Airwolf 3D offers 3D printers of exceptional performance, engineered from the bottom up for ease of use and dependability.

3D Printers That Make Themselves. Files are provided with each 3D printer, enabling the user to print out parts for the printer with the printer.
