Market Leader in Service Management Applications

Leaders in Land and Offshore Life Support Services Selects Alert Software to Streamline Their Project Job Costing Processes

Toronto, ON – August 30, 2013 **Fieldpoint Service Applications Inc.** announced today that one of largest service providers of life support services for the oil and gas industry, as well as defense and government agencies had selected Alert Software to manage their project job costs, workforce scheduling and time management processes.

The provider sets up remote housing infrastructure and support services for out-lying, global work crews. On average they serve 10000 meals per day, provide temporary and permanent housing structures, as well as, support services such as emergency response, logistics, safety and housekeeping.

Alert Software will replace manual time keeping methods and automate their entire workforce processes. Alert's platform will calculate on going rolling project costs, manage the schedules of their global resources and work details.

"Managing a global workforce requires precision and proper governance".   Says, Phil Smart, COO at Fieldpoint Service Applications. "When you are setting up a mini-township such as our client does, you need tight cost management controls; with flexibility to configure the system to meet the workforce nuances of each business unit."

Alert Software will streamline:

- Project Management and Job Costing
- Scheduling and Dispatching
- Time Management

About Fieldpoint Service Applications Inc.:
