

NEW 790T TREADMILL

PERFORMANCE PLUS – SPEED, INCLINE AND WORKOUT LEVELS

The enhanced speed and incline features of the new 790T appeal to those who want more out of their treadmill workout while still accommodating regular treadmill users. With a top speed of 15.6 miles per hour (25 kph), the 790T enables users to train at a greater variety of paces ideal for a mile to marathon length run or sprint training. The increase in maximum incline from 15% to 20% is great for walkers who want an additional challenge with an increased opportunity for fat burn. The added workout levels offer users a path to broader workout progression through a greater range of intensities while maintaining the same durability, stability, comfort and entertainment options of the 770T.

USER FRIENDLY TECHNOLOGY

The CardioTouch™ touchscreen display offers a single command center for every exercise workout and entertainment control. Your members can easily set up a workout, charge an iPod® or iPhone®, scroll through playlists, albums, artists, podcasts and more. Optional technology features include the embedded MYE wireless audio receiver and the E3 View high definition monitor which offers three viewing modes on a 15.6" embedded display.

SPECIFICATIONS

Product Name	790T
Dimensions (L x W x H)	82.5" x 36" x 60" (210 cm x 91.5 cm x 152.5 cm)
Speed	0.5 – 15.6 mph (0.8 – 25 kph)
Incline Range	0% – 20%
Running Area (L x W)	60" x 22" (152 cm x 56 cm)
Max User Weight	400 lbs. (182 kg)
Drive	5 HP peak AC drive motor
Display	4.3" Touchscreen for workout and entertainment setup and control; Graphic display of workout profile via 8 x 15 LED matrix; Numeric display of time, distance, calories, calories/hour, METs, Watts, pace and heart rate including multi-color indication of heart rate range; Lower display shows incline and speed
