

Forex Profit Caster, Forex trading software that runs completely online and also claims to provide a complete Forex education system has caught the attention of ForexProfitCasterReviews.org's Stan Stevenson, prompting an investigative review.

"Bill's new strategy focuses on his Forex Triangle pattern that he has shown can predict the direction of the 8 most profitable Forex markets with 79.6% accuracy. Poulos has even designed the software, so that it will filter out false break outs and focuses on the hourly or end of day time frame," reports Stevenson. "Forex Profit Caster provides traders a quick start guide and two trading blueprints. Traders can select from three trading time-frames: hourly, 4 hour, and end-of-the-day trading. They can get their hands on the useful techniques and strategies taught by this program through videos that come with full-color reference manuals, blueprints, cheat sheets, and more."

Forex ProfitCaster consists of custom written web-based trade alert software that is considered to be the breakthrough proprietary 'triangle' forecasting algorithms in the industry, trade alert messages that one can receive these via text message or email, dual trading methods along with hourly and end of day charts, physical home study course, weekly online group coaching sessions to be in contact with Bill Poulos and his trading team for online Q&A sessions, and lifetime access to the members' website along with full service and a year's unlimited email support. The home study course includes 4 CD-ROM video tutorials, a full color reference manual, trading blueprints, and a quick start guide.

"Our <http://www.slideshare.net/IMReviewer/forex-profit-caster-review-bonus> [Forex Profit Caster review \_\_title\_\_ Forex Profitcaster Review] shows it runs on two different time frames, both hourly and end of day and there are upgrades available if you want more. The alert software is based on the most up to date, breakthrough forecasting algorithms known at the 'triangle' system," says Stevenson. "With Forex Profit Caster, you are getting customized Forex trade alert software that incorporates proprietary 'triangle' forecasting algorithms from veteran trader Bill Poulos who has over 35 years of experience."

"Forex Profit Caster consists of both an educational section and an alert system; this doesn't mean that the novice Forex trader is excluded from benefiting from the program. Even those who've been trading for years are likely to find the educational portion highly beneficial. You can be rest assured that you're trading using what is the most advanced system that's been developed through some of the best brains in the business. We also love the fact that Forex ProfitCaster is not platform specific and is completely online. There's also no need to download and install anything on your own computer, freeing it up to run faster and store other items."
